

Take-Home Final Exam

DIRECTIONS

You may work on the exam during any time interval $[t_1, t_2]$ with $t_2 - t_1 \leq 24$ hours, $t_1 \geq$ noon on May 3, and $t_2 \leq$ 4:00 PM on May 11. The time interval begins when you take the exam out of the envelope. The exam must be returned to Nancy or Ferna in Wean Hall 6113 as soon as possible after you finish, but no later than 4:30 PM on Tuesday, May 11. Consultation about any aspects of the exam with anyone other than the instructor is expressly prohibited, until 4:30 PM on May 11. Do not use any internet sources. You may use the textbook as well as your class notes. If you use any other math books, be sure to cite them. Don't worry if you do not finish. Good Luck. (The point allotments are provided in order to give an idea of the values of the problems relative to one another. They do not have any significance on an absolute scale.)
